Dear Mr. Goldberg,

I do very much appreciate the time you are taking with the Altgens picture Because I wondered whether the original negative was out of focus, as you say in your letter of the 2nd., I asked this question of the lab. They again examined the print after I asked the question and informed me that it was in the enlarging that the picture is out of focus. The clue they gave me was in the grain. Therefore, I hope you have the negative examined with this in mind to see if it is possible for me to get a clearer print with more careful enlarging.

You do not respond to my inquiry about the AP providing me with a carefully-made enlargement of this man. I would, if I can get it, appreciate this.

Sincerely yours,

Harold Weisberg
